CCCGC
The President's Platform
Grover Mudd, President

Dear Members,

The January Volunteer of the Month is: Sandy Todd.

As 2019 comes to an end and 2020 begins, I want to thank everyone for your support. During 2019 the club accomplished the following:

- **Over 350** members were assisted with computer/technical support by our wonderful volunteers as walk-ins or with appointments;
- **Over 370** members brought in their computers for more extended service;
- $3,000 in scholarships awarded to graduating Charlotte County seniors seeking further education in the computer/tech field within the State of Florida;
- **Over 300** computers/laptops were refurbished and given to needy Charlotte County students, veterans and homeless folks;
- We had our 3rd annual Stone Crabs baseball outing with a total of 112 people in attendance;

Reminders:

- If you have any suggestions for **topics for the meeting presentation** or if you would like to present a topic, please let me know. I hope everyone enjoys the meetings.
- If you have any suggestions for **courses** you want to attend, email a note to the office at **cccgcoffice@gmail.com**. In the subject line type "Class Requests".
- We need **volunteers** for refurbishing & tear-downs. Please see Lydia if your are interested.
- If you have any recommendations for "**Monthly Favorites**", please see George or log in to **cccgc.info** click "Monthly Favorites" and complete the form.
- If I have not personally met some of you, please stop in the office or come up to me at our regular meetings. I would greatly enjoy getting acquainted with you.

I appreciate you allowing me to represent you as President for another year for the club, and I hope to see you at our **next meeting on Tuesday, January 7**.

Grover

Guidelines for Attending Classes

Please be sure to notify the instructors or Office when planning to attend class by either email or the online entry signup form.

Facebook to let users upload all photos to Google
2 December 2019

Image copyright

Facebook has launched a tool that will enable members to transfer photos and videos they have uploaded to the platform to Google Photos.
The service would initially roll out in Ireland and then, in 2020, across the world, Facebook said.
It also said it planned to include other services in future as part of its commitment to "data portability".
The Open Rights Group campaign welcomed the move but said it needed to extend beyond the technology giants.

'Rogue actors'
"It's important that Facebook and other companies allow you to move data about," said ORG director Jim Killock. "It's critical that this kind of portability is not just for a handful of global giants, if it is going to encourage competition. "There will also be potential privacy issues with data portability as users will potentially take risks when they move data to third parties, so companies and regulators will need to develop ways that deal with rogue actors."

In a blog post announcing the Google Photo tool, which has taken a year to build, Facebook said it had considered security risks.

'Mitigate risks'
- "Any mechanism to send data outside of a service carries risk," it said.
- "We have put measures in place to mitigate these risks."
- These include extra authentication steps to ensure only the owner of the account can transfer a file.
- Facebook's Google Photos tool is part of the Data Transfer Project, which aims to be an open-source platform anyone will be able to use to move their data between online services.
- Apple, Google, Microsoft and Twitter are also involved in the collaboration.
- Facebook has allowed members to download their data since 2010.
- In 2018, journalist Radhika Sanghani **told BBC News** the 324MB data file of her 12 years on Facebook had taken 40 minutes to download.
