What Happens to Your Online Accounts When You Die?
We're all going to die someday, but the same can't be said for our online accounts. Some will persist forever, others might expire due to inactivity, and some have preparations in place for when you pass away. So, let's have a look at what happens to your online accounts when you go offline forever.

Microsoft Won't Call You About Your Computer
"Hi, I'm from Microsoft and we've noticed your computer has a lot of viruses." This is how the Microsoft tech support scam starts. By the end, the victim has probably paid hundreds of dollars and had their computer infected. This cold-calling telephone scam has been going on since 2008 but shows no sign of going away. If you have any relatives who might fall for it, be sure to let them know Microsoft won't actually call them.
