President's Message
Jane McDonald

Dear Members:

I hope everyone's summer is going well! Of course, it's been a warm one in Southwest Florida.

Our office hours are Tuesday – Wednesday – Thursday from 10:00 am to 2:00 pm. Please call the office at 941-585-0356 or email cccgcoffice@gmail.com to schedule an appointment with a technical support volunteer (time slots are on the hour for an hour long appointment: 10, 11, 12, or 1). Please specify the assistance you need.

Please note: The door to get into the building at 514 E Grace St is now locked. When you arrive, call 941-585-0356 and someone from the office will greet you and open the door.

The next CCCGC Meeting will be held on Monday, October 5th from 3:00 to 5:00. We will hold a Q&A session from 3:00 to 4:00. Our presentation will be given by Alicia Oates, Punta Gorda IT representative, who will discuss AI, Cloud, and Internet Security. I hope you can join us!

A future heads-up notice: Monday, September 7th General Meeting is cancelled due to the holiday. There will be no meeting in September.

Classes for August will be Thursday September 3rd – Maintenance and Backup and on Thursday, September 17th will be Windows 11 – Q&A. On our cccgc.info web page, click on Events – our monthly calendar will show – click on the class to get information. If you would like to attend, click the RSVP and fill out the form and click Submit or call the office 941-585-0356 to reserve a spot.

Please consider becoming a volunteer in the office. Check out the volunteer options within the Bytes.

Two (2) of our volunteers have recently resigned. I would like to thank and acknowledge: Gustavo Rivero, in the technical support role, worked to help members and cleaned, updated, and got many laptops and computers ready for students and veterans. Gustavo also served on the board of directors. And to Cheryl Bogacki who worked at the front desk; answering phone calls, greeting those who came into the office, and distributing computers to students and veterans. Among other tasks. Thank you, Gustavo and Cheryl!!!

We need donations of laptops and desktops, so we can refurbish them to give out to students, veterans, and non-profits. We are running quite low with the high demand of need. There is more information concerning donations later in this newsletter, so please read because there are some changes concerning what we accept.

Thank You
Jane McDonald, President

Important Notice - Changes in Recycling

The board of directors has voted to implement the following changes.

Due to many factors including a lack of space, lack of volunteers and more specifically, low prices for scrap materials, the CCCGC has decided to reduce the amount of recycling that we do. This means that we won't be able to take everything members would like to give us.

Effective immediately, we will continue to accept all computer related equipment, monitors, mice, keyboards, laptops, and desktops. We will also accept computer speakers and cables. Computers should be less than 10 years old. No Windows XP machines, they're too old. We will no longer accept printers. Here's a link to Staples recycling service. Note the prices at the end of the list. https://www.staples.com/stores/recycling

Things we won't take include IPads, home phones, cordless and corded, cell phones, appliances, light bulbs, televisions and radios.

Staples Unfortunately Staples has changed some of their recycling policies. For bigger items such as monitors, they are now charging. Too bad.

Charlotte County E-Waste: Contact Waste Management 2 days ahead of you regular pickup day to schedule a pick up of your electronics. Their phone number is: 941-629-1106 or 941-697-0012

Also, many police departments will take old cell phones. They likely want them reset and unlocked.

VOLUNTEERS NEEDED

Help Keep the Charlotte County Computer Group Running Strong

Our club runs on volunteers, and we need YOU! Whatever your interests or experience, there's a way to get involved. Opportunities are open now — take a look below and join us.

Front Desk Help
Greet members and visitors, answer questions, and help keep things running smoothly at the front counter. No technical background required — just a friendly attitude! Some specific help, membership and donation database maintenance.

Computer Help Volunteers
Have computer know-how? Help members troubleshoot problems, answer questions, and get the most out of their computers and devices. All skill levels welcome; every bit of experience helps someone.

Leadership — Run for Office
Club elections are coming up in December! We're looking for members interested in running for a leadership position on the board. Help guide the club's direction and make a lasting impact.

Website Volunteers
Help maintain and update the club website. Experience with web design, content updates, or basic troubleshooting is a plus — training and support provided.

Bytes Newsletter Volunteers
Enjoy writing or enjoy putting things together? Help produce the Bytes, our monthly newsletter — write an article, contribute a tip, or help assemble each issue. Contributions of any size are welcome.

No experience needed for many roles — just a willingness to help. We'll show you the ropes!

Interested? Get in Touch!

AI Articles

Here's an interesting article in the Florida Weekly that discusses AI and seniors and how AI is affecting seniors through healthcare in a positive way and also scams in a negative way. It's worth a read.

https://tinyurl.com/4ucmjxaa

Print Screen

Did you ever press the print screen button and wonder what was going to happen next? I have. As a consequence, I never use it. I use the Snipping Tool frequently to print and save parts of or all of a screen page. Here's an app that might help simplify printing or saving anything happening on your screen. It's called ShareX and it's free.

First, here's a link to an article from Make Use Of describing the app and what it does.

ShareX article: https://tinyurl.com/w3v3hb9m

If I have any complaints it is that the program can do a lot. That tends to make it harder to learn and use and therefore more complicated. To keep things simple I'm going to start with 2 or 3 tasks that I find useful.

So, if you install the program you should take a look at a few settings so you can start to understand how it's going to work.

Official Publication of the

Tech Info Continued

After downloading ShareX and installing it, if you click on the program icon, here's the screen you get.

There's a lot to it and that's the problem. So my answer is to use it for 1 or 2 specific tasks and see how you like it. If it works for you then you can consider using more of the functions that are available.

First, note the 5 hotkeys on the right. These are some of the obvious uses for the program. Learn a few of these hotkeys and you're halfway there. Note that there are two screen recording options. GIFs are meant to be short, low image quality videos without sound. Not a good way to try to record a video on YouTube.

So what are a few of the settings you should look at and maybe change? 1.Where are the screenshots saved on the computer? And 2, what happens when I hit the print screen button? Why is that important? Because you can have the image saved, printed, or both. It's all in the settings.

Why is the app suddenly light? That's a setting under Applications and Theme. Notice the Nord Light on the right? That's a pull-down box with several canned choices. I believe they can all be tweaked by changing the numbers after each color but that's beyond me for now. I'm fine with the canned choices.

Another setting you should take a look is whether ShareX starts when you turn on your computer. If it does, then hitting the prt scr (Print Screen) button should bring up ShareX options. To check go to ShareX settings, Application settings then Integration. Here's picture which show the choice to start with Windows.

ShareX article: https://tinyurl.com/w3v3hb9m

And probably the last option we should look at is what happens after we hit the Print Scrn button for example. On the main settings or opening page, click on After capture Tasks. You get this page. The 2 settings that are darker are turned on. If you hit the Print Scrn button, it would copy the image to the clipboard and save it to a file in the ShareX folder in the Documents folder. If you wanted it to print the print Scrn image every time, you would click on Print image once in these settings and that would highlight that choice as well and future Print Scrn images would be saved and sent to the printer. The choice is yours but you have to use the settings to make it.

So, what's the bottom line? ShareX can be a very useful program but it takes some getting used to. My suggestion would be to give it a try and see how it works out for you. It costs nothing but a bit of your time to try it out.

Final Thoughts

George and Rose Kopenec

Another couple I thought ought to be recognized for the volunteer activities with the Charlotte County Computer Group. That couple would be George and Rose Kopenec. Both have been long-time members who, after joining, quickly began to offer their time and expertise to the club.

My first recollection of George was shortly after I joined the club in 2018 or so. Before every monthly meeting, George would teach classes to anyone who was interested. He also offered a segment during the each meeting where he presented a website he found that was interesting or useful. He did that for many years. Rose spent many hours of volunteer time helping members with Apple devices.

There's a bit of confusion as to exactly when they joined but I did find a reference to George saying he joined in 2011. I'm assuming George and Rose joined together.

In addition to volunteering, George and Rose soon became involved in the leadership of the club. Here's a chronology of their leadership roles.

2018 - George ran for the board of directors and won a seat.

2019 - George served on the board again.

2020 - George ran for Vice President and won.

2020 - Rose ran for a seat on the board and won.

2021 - George ran for President and won.

2021 - Rose served as a director again.

2022 - Rose ran for Secretary and won.

Final Thoughts

George and Rose Kopenec

In November 2017 Rose started helping Yvette Pilch with the Bytes newsletter. She served as Yvette's assistant for a couple years and then in October 2019, took over as editor. Rose served as editor until March of 2022 after which Yvette resumed her role as editor.

Unfortunately both George and Rose have struggled with health issues for the last several years. We should all keep them in our thoughts and prayers.

Here are a few pictures from their activities over the years.

2014

2015
